

PROFILE

Analyst combining a quantitative foundation (Algebra & Cryptography) with real founder experience (Co-founder, A9RA — 25,000+ users in 5 days). Master's candidate in International Trade & Business at ESIC Madrid, researching startup ecosystems and valuation. I bring product strategy and quantitative rigor to assessing businesses, deals and startups.

EXPERIENCE

Valtier Real Estate, MadridMay 2026 — Present

Business, Marketing Strategy & Operations Intern
—Driving business and operations optimization for a luxury real estate agency — building automation systems, AI-assisted workflows and performance dashboards to support strategic decision-making.

A9RAJan 2024 — Present

Co-founder
—Executed the go-to-market strategy that acquired 25,000+ users within 5 days of public beta launch.
—Built the investor pitch deck and financial projections for the pre-seed round; ran competitive landscape analysis to identify EdTech market gaps.

Valuation Models Research2024 — 2025

Research Analyst
—Developed valuation frameworks for Algerian startups by adapting established models to the emerging-market context.

Positive AgencyFeb 2025 — Oct 2025

Product Designer
—Developed product roadmap strategy for clients, boosting retention and feedback; directed the creation of "AngelEast," a platform linking MENA founders with regional investors to enhance early-stage deal flow.

Ruina Studio (UAE) & Itihad Group2022 — 2023

Consultant
—Advised client leadership on product roadmap, retention and market positioning, directly impacting revenue.
